Activity descriptions

Junior Wind & Brass

This activity is aimed at pupils who have received at least two terms of instrumental lessons on either brass, woodwind or drums. Skills such as listening, sound production, technique, music reading and understanding and ensemble playing are all covered in this session. This is the perfect way to introduce young players to ensemble playing.

Concert Band

This session is aimed towards more advanced brass, woodwind and drum kit players who receive lessons on their instrument. Players will normally be grade 2+. This ensemble also welcomes more advanced pupils, up to grade 8 standard.

Senior Ensemble

A 'chamber' (smaller) ensemble aimed at developing ensemble playing skills of our more advanced strings, woodwind and brass players.

Junior Jazz

For students who are having instrumental lessons in schools, and are able to read / play their first few notes, up to those working at grade 3 standard.

Young Bowers

A string group for string players with a term's playing experience or more, developing skills such as listening, tone production, technique, music reading and understanding and ensemble playing. This is the perfect way to introduce young players on their journey of string ensemble playing.

Senior Strings

A group for more experienced string players, who are able to play in a range of keys.

Mini Strings

Learn violin or cello through fun activities, songs & games! For those in years 1 and 2.

Voice Academy

Voice academy is a two-or-three-singers-a-part harmony group, singing a variety of musical genres whilst focussing on developing healthy vocal technique and performance skills, working from scores and learning by heart.

Performing Arts

Performing arts is a group where we explore and develop acting skills, movement, stage awareness, and singing within the genres of Musical Theatre and Drama.

Rock School / Guitar Skills

Develop musical skills within a rock band, exploring repertoire from the 1960s to a more contemporary genre. Open to guitarists, bass guitarists, drummers and keyboard players who already receive instrumental lessons.

Gig Band

An ensemble catering for more experienced musicians who already receive lessons on their instruments. Open to guitarists, bassists, drummers, trumpeters, trombonists, saxophonists and vocalists, exploring a more mainstream rock and popular idiom.

Young Performers and Early Years Orchestra – Little Stars

These sessions are for our youngest learners – those in Reception up to Year 4.

Children will learn the basics of musicianship through singing games, using puppets and hand-held instruments, such as claves, chime bars and bells. Children will be working towards reading rhythm notation and playing expressively.

The Early Years Orchestra develops the skills learnt in Young Performers. Students will learn ensemble skills, such as listening to each other and following a conductor. Instruments (recorders and ukuleles) will be integrated into the orchestra as the year progresses.
